LPC and/or Instrument Rating renewals, or other tests - per test:	£200.00
Other types of training - i.e. instructor training, rates on request.	

Notes:

#1 Dry rate excludes all operational costs, i.e. fuel, oil, landing, parking (away from base) Euro-control and any other operational expense. It includes the aircraft, all maintenance and reserve costs and insurance. Calculated per block hour to the nearest minute from tachometer or hour metre.

#2 Demurrage rate is calculated using unavoidable fixed annual charges and scheduled maintenance.

#3 Positioning or safety pilot rate is charged from the time the positioning/safety pilot comes on duty at Lydd until next going off duty at Lydd at the rate shown. The Member utilising these services will also be responsible for all out-of-pocket expenses and subsistence costs to include, as appropriate, a reasonable standard of hotel accommodation if away from base.

The above rates are for 2006 and the Beech Club will endeavour to maintain these rates throughout 2006 and will, with experience gained, make any necessary adjustments to 2007 rates which are not anticipated to be material. However, the Beech Club reserves the right to make any adjustment necessary should unforeseen circumstances or costs occur.
